# START GIRLS RIGHT

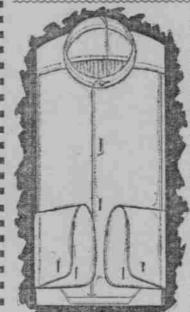

Many beautiful girls become invalids for life, because at the crucial period of puberty they pay no attention to the laws of health. Mothers should protect their daughters' health by giving them necessary information and proper treatment. When the menses come on a girl unawares in her inexperience she is either frightened into convulsions or scared into trying to check the flow. Many girls have checked the flow and it has never started again. And as a result they have grown pale-faced, with "crow tracks" on their cheeks, and dark half-moons

taken every morning after a girl is twelve years old will bring the menses on properly and keep them regular. It will help her to develop into an attractive woman and equip her for the duties of wifehood and motherhood. All druggists sell \$1.00 bottles of Wine of Cardui.

The flollywood, Ashury Park, N. J., Feb. 3, 1900,
I read your advertisement in regard to Wine of Cardul in the Baltimore American, and
R so favorably impressed me that on my visit to Baltimore during the holidays I purchased a shottle of it for my
adopted daughter, who was suffering with lenale troubles. She had been under the doctor's care for some time,
and when her periods would come on her suffering was something terrible. I induced her to try it and the first
dose brought on her meases. She took it regularly according to the directions, and was greatly relieved. To use
her own words, "It saved my life".
